TO ALL CONCERNED PERSONS AND AGENCIES:

The Regional Water Quality Control Board, Central Valley Region will consider adopting revised waste discharge requirements (WDRs) for the Hay Road Landfill at its meeting on **4/5 December 2008**. The WDRs are being revised to approve the Discharger's request to recirculate leachate and landfill gas condensate in specific composite-lined landfill modules, to discharge treated wood waste at specific composite-lined Class II landfill modules, and to approve proposed changes to the monitoring and reporting program.

Electronic copies of the proposed tentative WDRs and the Notice of Public Hearing are available for viewing and downloading on our website at www.waterboards.ca.gov/centralvalley/board_decisions/tentative_orders. The Notice of Public Hearing contains important information about the public hearing process. Electronic copies of the April 2000 Standard Provisions and Reporting Requirements that would be adopted as part of the WDRs are at www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders.

If you do not have access to the Internet or otherwise require paper copies of these documents to be sent to you, please contact Bill Brattain at (916) 464-4622 or by email at bbrattain@waterboards.ca.gov. Persons wishing to comment on this matter must submit their testimony, evidence, and/or comments in writing to the attention of Bill Brattain at the Regional Water Board no later than 5 p.m. on **15 October 2008**. Written materials received after 5 p.m. on 15 October 2008 will not be accepted and will not be incorporated into the administrative record if doing so would prejudice any party.
